Autore	Macmillan Neil A.
Titolo	Detection theory : a user's guide // Neil A. MacMillan, C. Douglas Creelman
Pubbl/distr/stampa	Mahwah, N.J. : , : Lawrence Erlbaum Associates, , 2005
ISBN	1-135-63456-4 1-135-63457-2 1-282-32161-7 9786612321610 1-4106-1114-0
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (466 p.)
Altri autori (Persone)	CreelmanC. Douglas
Disciplina	152.8
Soggetti	Signal detection (Psychology) Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 463-475) and indexes.
Nota di contenuto	Contents; Preface; Introduction; 1 The Yes-No Experiment: Sensitivity; 2 The Yes-No Experiment: Response Bias; 3 The Rating Experiment and Empirical ROCs; 4 Alternative Approaches: Threshold Models and Choice Theory; 5 Classification Experiments for One-Dimensional Stimulus Sets; 6 Detection and Discrimination of Compound Stimuli: Tools for Multidimensional Detection Theory; 7 Comparison (Two-Distribution) Designs for Discrimination; 8 Classification Designs: Attention and Interaction; 9 Classification Designs for Discrimination 10 Identification of Multidimensional Objects and Multiple Observation Intervals11 Adaptive Methods for Estimating Empirical Thresholds; 12 Components of Sensitivity; 13 Statistics and Detection Theory; APPENDICES; Glossary; References; Author Index; Subject Index
Sommario/riassunto	Detection Theory is an introduction to one of the most important tools for analysis of data where choices must be made and performance is not perfect. Originally developed for evaluation of electronic detection, detection theory was adopted by psychologists as a way to understand sensory decision making, then embraced by students of human memory. It has since been utilized in areas as diverse as animal

behavior and X-ray diagnosis. This book covers the basic principles of detection theory, with separate initial chapters on measuring detection and evaluating decision criteria. Som

2. Record Nr.	UNINA9910463029503321
Titolo	Labour in Southeast Asia : local processes in a globalised world // edited by Rebecca Elmhirst and Ratna Saptari
Pubbl/distr/stampa	London ; ; New York : , : RoutledgeCurzon Amsterdam : , : International Institute of Social History, , 2004
ISBN	1-135-79136-8 0-203-64185-X
Descrizione fisica	1 online resource (417 p.)
Collana	Changing labour relations in Asia
Altri autori (Persone)	ElmhirstRebecca SaptariRatna
Disciplina	331/.0959
Soggetti	Labor - Southeast Asia Electronic books. Southeast Asia Economic conditions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Studying labour in Southeast Asia / Ratna Saptari and Rebecca Elmhirst -- Labour dynamics in the plantation and mining sectors in Southeast Asia, 1840-1950 / Amarjit Kaur -- Constructing child labour / Benjamin White -- Trade unions in Vietnam in historical perspective / Irene Nørlund -- Local politics and labour relations in the Philippines / Chan Fong Yin and Philip F. Kelly -- Are they incompatible? Modern farming and non-market labour in the northern Philippine uplands / Edsel E. Sajor -- From resource managers to secondary farm hands / Bernadette P. Resurreccion -- Labour practices outside the factory / Jennifer Alexander and Paul Alexander -- Transforming industrial relations / Peter Wad -- Labour relations and mobility in provincial Thailand / Daniel Arghiros -- Labour relations in a changing rural world / Jonathan Rigg -- Labour restructuring in Vietnam since the

economic reform / Xavier Oudin -- Domestic workers and transnational migration / Shirlena Huang, Brenda S.A. Yeoh and Richard T. Jackson -- Labouring communities / Erwiza Erman -- Labour politics in migrant communities / Rebecca Elmhirst.

Sommario/riassunto

In seeking to provoke debate, the book reveals the variety of experiences evident in countries and regions marked by capitalist and (post) socialist regulatory frameworks, and contrasting labour regimes, histories and cultures. The contributions show the importance of critically examining both the complex nature of global-local links and the particular ways economic processes are around the themes of labour regimes, labour processes, labour mobility and labour communities, the essays show how economic development is not only shaped by market forces but is also interlocked in systems of meaning

Titolo	Liquid Polymorphism : Advances in Chemical Physics . Volume 152
Pubbl/distr/stampa	Hoboken, : Wiley, 2013
ISBN	1-118-54037-9 1-118-54035-2 1-299-44917-4 1-118-54036-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (654 p.)
Collana	Advances in Chemical Physics, v. 152
Disciplina	541.2 541.3
Soggetti	Chemistry, Physical and theoretical Electron Spectroscopy Polymorphism (Crystallography) Liquids Chemical & Materials Engineering Engineering & Applied Sciences Materials Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

Note generali

Description based upon print version of record.

Nota di contenuto

Liquid Polymorphism: Advances In Chemical Physics; CONTRIBUTORS TO VOLUME 152; FOREWORD; PREFACE; PREFACE TO THE SERIES; CONTENTS; Electron Spin Resonance Studies of Supercooled Water; I. Introduction; II. Outline of ESR Spectroscopy; A. Spin Probes; B. Rigid-Limit and Motional Narrowing of the Lineshape; C. Accessible Range of the Rotational Dynamics; III. ESR Spectroscopy of Spin Probes: Basic Theoretical Introduction; A. Spin Hamiltonian; B. Lineshape Analysis; 1. No Tumbling: Powder Lineshape; 2. Tumbling: Motional Narrowing of the ESR Lineshape  
IV. ESR Studies of Liquid Water and Aqueous Solutions: A Review  
V. ESR Studies of Confined Water in Polycrystalline Ice; A. Water Confinement in Polycrystalline Ice; B. Location of Paramagnetic Solutes in Water-Ice Mixtures; C. Rotational Dynamics of TEMPOL in Interstitial Water of Polycrystalline Ice; 1. Spin Probe Mobility Above 130K; 2. Dynamical Heterogeneities; 3. Temperature Dependence of the Spin Probe Reorientation; 4. Breakdown of the Debye-Stokes-Einstein Law; 5. Spin Probe Sensing of the Water Static Heterogeneities; 6. Missing Evidence of Additional Impurities in Interstitial Water  
VI. Summary  
References; Pressure-Driven Liquid-Liquid Transformations and Corresponding Bizarre Viscosity Behavior; I. Introduction; II. Methods; III. Results and Discussions; A. Se; B. AsS; C. As<sub>2</sub>S<sub>3</sub>; D. B<sub>2</sub>O<sub>3</sub>; IV. Conclusions; References; The Stability Limit and Other Open Questions on Water at Negative Pressure; I. Introduction; II. What is Negative Pressure?; III. The Phase Diagram of Water; IV. Experimental Methods to Generate Tension; A. Acoustic Cavitation; B. Metastable Vapor-Liquid Equilibrium; C. Berthelot Tube; D. Centrifuge Method; V. Limit(s) of Metastability  
A. Comparison Between the Different Methods  
B. Origin of the Discrepancy in the Limits of Metastability; C. Remaining Issues with Inclusions; D. Path-Dependent Nucleation; VI. Other Topics in the Study of Liquids Under Tension; A. Equation of State of Water at Negative Pressure; B. Other Properties of Liquid at Negative Pressure; VII. Perspectives; References; Water-Like Anomalies of Core-Softened Fluids: Dependence on the Trajectories in (PT) Space; I. Introduction; II. System and Methods; III. Results and Discussion; A. Diffusion Anomaly; B. Density Anomaly; C. Structural Anomaly  
IV. Rosenfeld Scaling  
V. Conclusions; References; High-Frequency Dynamics of Liquids Through a Liquid-Liquid Transition: The Case of CS; I. Introduction; II. The Case of Liquid Cesium; III. The Experiment; IV. Results; V. Discussion; VI. Conclusions; References; The Liquid-Liquid Phase Transition, Anomalous Properties, and Glass Behavior of Polymorphic Liquids; I. Introduction; II. Polymorphic Liquids: Phase Diagram, Anomalous Properties, and Glass Behavior; A. Liquid-Liquid Phase Transition; B. Supercritical Region: Anomalous Properties; C. Glass Polymorphism  
III. Computer Simulation Models of Polymorphic Liquids

Sommario/riassunto

The Advances in Chemical Physics series-the cutting edge of research in chemical physics The Advances in Chemical Physics series provides the chemical physics and physical chemistry fields with a forum for critical, authoritative evaluations of advances in every area of the discipline. Filled with cutting-edge research reported in a cohesive manner not found elsewhere in the literature, each volume of the Advances in Chemical Physics series presents contributions from internationally renowned chemists and serves as the perfect supplement to any advanced graduate class de
