between Castile and Aragon in the late-fourteenth century / Donald J. Kagay -- Trastamara kings, queens, and the gender dynamics of monarchy / Theresa Earenfight -- Don Alvaro de Luna and the indictment against royal favoritism in late medieval Castile / L.J. Andrew Villalon.

Sommario/riassunto

"The Emergence of Leon-Castile brings together the current research of colleagues, students and friends of Joseph F. O'Callaghan, a pioneer in the study of the kingdom of Leon-Castile. The essays focus on the politics, law and economy of Leon-Castile from its first great leap forward in the eleventh century to the civil strife of the fifteenth. No other volume in English allows the reader to trace the institutional development of the kingdom over several centuries. The collection underlines the fact that Leon-Castile was not a backwater but a sophisticated state that had an important influence on the development of medieval and renaissance Europe"--Provided by publisher.
