

1. Record Nr.	UNINA9910818216003321
Autore	Yang Xiaoyi
Titolo	Potential of activated sludge utilization [[electronic resource] /] / Xiaoyi Yang
Pubbl/distr/stampa	New York, : Nova Science Publishers, c2010
ISBN	1-61728-777-6
Edizione	[1st ed.]
Descrizione fisica	1 online resource (64 p.)
Collana	Environmental science, engineering and technology series
Disciplina	628.3/54
Soggetti	Digester gas Gas as fuel Sewage sludge fuel Sewage - Purification - Anaerobic treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- POTENTIAL OF ACTIVATEDSLUDGE UTILIZATION -- POTENTIAL OF ACTIVATED SLUDGE UTILIZATION -- CONTENTS -- PREFACE -- 1. INTRODUCTION -- 1.1. DISPOSAL REQUIREMENTS -- 1.2. RECENT SLUDGE DISPOSAL -- 1.3. PROGRESS IN THE RESEARCH OF MUNICIPAL WASTESLUDGE MANAGEMENT -- 1.3.1. Rational Application and Science Strategy -- Perfecting and Executing Standard of Pollutants Control -- Removal Heavy Metals -- 1.3.2. Reducing Sludge Output -- REFERENCES -- 2. POTENTIAL OF ANAEROBICSLUDGE DIGESTION -- 2.1. EFFECTS OF SLUDGE CHARACTERISTICS ON ANAEROBICDIGESTION -- 2.1.1. Nutrient Contents -- 2.1.2. Inhibition Contents -- 1. Heavy Metals -- 2. Sulphide -- 2.2. PRETREATMENT FOR ENHANCED ANAEROBICDIGESTION -- 2.2.1. Mechanical Pretreatment -- 2.2.2. Chemical Pretreatment -- 2.2.3. Thermal Pretreatment -- 2.2.4. Ultrasound Pretreatment -- 2.2.5. Advanced Oxidation Pretreatment -- 2.3. THERMAL PRETREATMENT KINETICS -- 2.3.1. Kinetic Model -- 2.3.2. The Two-stage First-order Reaction Kinetic Model -- 2.3.3. Generalized Kinetic Model -- 2.4. ENERGY OUTPUT POTENTIAL -- ABBREVIATIONS -- REFERENCES -- 3. POTENTIAL OF SLUDGE PYROLYSIS -- 3.1. PRINCIPLES -- 3.2. AFFECTING PARAMETERS -- 3.2.1. Temperature -- 3.2.2. Gas Residence Time -- 3.2.3. Heating Rate and Feed Size -- 3.2.4. Sludge Type -- 3.3. PYROLYSIS PRODUCTS -- 3.3.1.

Oil -- 3.3.2. Char -- 3.3.3. Non-condensable Gas -- 3.4.
PRETREATMENT FOR SLUDGE PYROLYSIS -- 3.4.1. Acid and Base Pre-
treatment -- 3.4.2. Catalyst -- 3.5. SLUDGE PYROLYSIS KINETICS --
3.5.1. Overview -- 3.5.2. Thermal Decomposition Behavior of Sewage
Sludge -- 3.5.3. Pyrolysis Kinetics Model -- 1. Traditional Pyrolysis
Model -- 2. Lorentz Fitting-multi-heating Method Model --
REFERENCES -- INDEX.
