

1. Record Nr.	UNINA9910818225103321
Autore	Gwilliam K. M
Titolo	Africa's transport infrastructure : : mainstreaming maintenance and management // Kenneth Gwilliam ; with Heinrich Bofinger ... [and others]
Pubbl/distr/stampa	Washington, D.C. : , : World Bank, , c2011
ISBN	1-283-06599-1 9786613065995 0-8213-8605-0
Descrizione fisica	xxxiii, 536 pages : illustrations, maps ; ; 23 cm
Collana	Directions in development. Infrastructure
Altri autori (Persone)	BofingerHeinrich
Disciplina	388.096
Soggetti	Transportation - Africa Infrastructure (Economics) - Africa
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The legacy of history -- Roads : the burden of maintenance -- Railways : not pulling their weight -- Airports and air transport : policies for growth -- Ports and shipping : moving toward modern management structures -- Urban transport : struggling with growth -- Spending to improve connectivity -- Financing : filling the gaps -- Governance : the key to progress.
Sommario/riassunto	This book presents and analyzes the results of a comprehensive collection of data on the extent and condition of transport infrastructure in Sub-Saharan Africa, identifies the reasons for poor performance, and estimates future financing needs.The transport facilities of Sub-Saharan Africa were built primarily for the colonial exploitation of mineral and agricultural resources. The chief goal of road and rail networks was to link mines, plantations, and other sites for the exploitation and transformation on natural resources to ports, rather than to provide general connectivity within the regio
