Sommario/riassunto

This volume covers a timely debate in contemporary security studies: can armed forces adjust to the rising challenge of insurgency and terrorism, the greatest transformation in warfare since the birth of the international system? Containing essays by leading international security scholars and military professionals, it explores the Fourth-Generation Warfare thesis and its implications for security planning in the twenty-first century. No longer confined to the fringes of armed conflict, guerrilla warfare and terrorism increasingly dominate world-wide military planning. For the first
