Explaining US Divergence in the Last Quarter of the Twentieth Century: The Long Swing Right 8. The Future of the American Welfare State References; Index
Sommario/riassunto	This book explores the role of the welfare state in the overall wealth and well being of nations and in particular looks at the American welfare state in comparison with other developed nations in Europe and elsewhere.It is widely believed that the welfare state undermines productivity and economic growth, that the United States has an unusually small welfare state, and that it is, and always has been, a welfare state laggard. This book shows that all rich nations, including the United States, have large welfare states because the socialized

programs that comprise the welfare state-public educa
