Sommario/riassunto	This volume combines different perspectives on case-marking: (1) typological and descriptive approaches of various types and instances of case-marking in the languages of the world as well as comparison with languages that express similar types of relations without

morphological case-marking; (2) formal analyses in different theoretical frameworks of the syntactic, semantic, and morphological properties of case-marking; (3) a historical approach of case-marking; (4) a psycholinguistic approach of case-marking. Although there are a number of publications on case related issues, there
