Sommario/riassunto	Covering the time span from the Shang to the Qing Periods (1520BC -

1911AD), Gang Deng examines important factors in the decline of the Chinese economy from medieval sophistication to modern underdevelopment. These factors include: \* resource endowments \* socio-economic structure \* property rights \* state and bureaucracy \* ideology and values \* geo-political environment \* internal rebellions \* external invasions and conquests

The Premodern Chinese Economy is a comprehensive analysis of China's economic history and provides essential background to the
