

1. Record Nr.	UNINA9910818517803321
Titolo	Antimicrobial resistance in wastewater treatment processes // edited by Patricia L. Keen, Raphael Fugere
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley Blackwell, , 2018 ©2018
ISBN	1-119-19244-7 1-119-19245-5 1-119-19242-0
Descrizione fisica	1 online resource (456 pages)
Disciplina	572.8/44
Soggetti	Antibiotics - Environmental aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Antimicrobial resistance genes and wastewater treatment / Mehrnoush Mohammadali and Julian Davies -- When pathogens and environmental organisms meet : consequences for antibiotic resistance / Jose Luis Martinez and Fernando Baquero -- One health : the role wastewater treatment plants play as reservoirs, amplifiers, and transmitters of antibiotic resistance genes and antibiotic resistant bacteria / Marilyn C. Roberts -- Assessing the impact of wastewater treatment plants on environmental levels of antibiotic resistance / Jessica Williams-Nguyen, Irene Bueno, and Randall S. Singer -- Navigating through the challenges associated with the analysis of antimicrobials and their transformation products in wastewater / Randolph R. Singh, Rachel A. Mullen and Diana S. Aga -- Metagenomic approaches for antibiotic resistance gene detection in wastewater treatment plants / Ying Yang and Tong Zhang -- Antimicrobials and antimicrobial resistant bacteria in Australia / Andrew J. Watkinson and Simon D. Costanzo -- The mobile resistome in wastewater treatment facilities and downstream environments / Roberto B.M. Marano and Eddie Cytryn -- Bacterial diversity and antibiotic resistance genes in wastewater treatment plant influents and effluents / Veiko Voolaid, Erica Donner, Sotirios Vasileiadis, and Thomas U. Berendonk -- The effect of advanced treatment technologies on the removal of antibiotic resistance -- Popi

Karaolia, Stella Michael, and Despo Fatta-Kassinos -- Antimicrobial resistance spread mediated by wastewater irrigation: the Mezquital Valley case study / Melanie Broszat and Elisabeth Grohmann -- Antimicrobial resistance related to agricultural wastewater and biosolids / Lisa M. Durso and Amy Millmier Schmidt -- Environmental antibiotic resistance associated with land application of biosolids / Jean E. McLain, Channah M. Rock, and Charles P. Gerba -- High throughput method for analyzing antibiotic resistance genes in wastewater treatment plants / Johanna Muurinen, Antti Karkman, and Marko Virta -- Antibiotic resistance and wastewater treatment process / Thi Thuy Do, Sinead Murphy, and Fiona Walsh -- Antibiotic pollution and occurrence of bacterial antibiotic resistance genes in Latin American developing countries : case study of the Katari watershed in the Bolivian highlands / Denisse Archundia, Celine Duwig, Jean M.F. Martins, Frederic Lehembre, Marie-Christine Morel, and Gabriela Flores -- Antimicrobial resistance in hospital wastewaters / Judith Isaac-Renton and Patricia L. Keen -- Curbing the resistance movement : examining public perception of the spread of antibiotic resistant organisms / Agnes V. Macdonald and Patricia L. Keen -- Public health consequences of antimicrobial resistance in the wastewater treatment process / Patricia L. Keen, Raphael Fugere, and David M. Patrick.
