Impossible Goals , Inevitable Successes Why are you struggling to grow your business when everyone else seems to be crushing their goals? If you needed to triple revenue within the next three years, would you know exactly how to do it? Doubling the size of your business, tripling it, even growing ten times larger isn't about magic. It's not about privileges, luck, or working harder. There's a template that the world's fastest growing companies follow to achieve and sustain much, much faster growth. From Impossible to Inevitable details the hypergrowth playbook of companies like the record-breaking Zenefits (which skyrocketed from \$1 million to \$100 million in two years), Salesforce.com (the fastest growing multibillion dollar software company), and EchoSign—aka Adobe Document Services—(which catapulted from \$0 to \$144 million in seven years). This template includes The 7 Ingredients Of Hypergrowth: You're not ready to grow until you Nail a Niche . Overnight success is a fairy tale. You're not going to be magically discovered. You need sustainable systems that Create Predictable Pipeline . Growth exposes your weaknesses and it will cause more problems than it solves—until you Make Sales Scalable .
