1. Record Nr.   UNINA9910818525203321
   Autore   Hanson Ardis
   Titolo   Mental health informatics / / Ardis Hanson, Bruce Lubotsky Levin
   Pubbl/distr/stampa New York, : Oxford University Press, c2013
   ISBN   1-283-85835-5
                      0-19-972033-9
   Edizione   [1st ed.]
   Descrizione fisica 1 online resource (285 p.)
   Altri autori (Persone) LevinBruce Lubotsky
   Disciplina   610.28/5
   Soggetti   Medical informatics
   Lingua di pubblicazione Inglese
   Formato   Materiale a stampa
   Livello bibliografico Monografia
   Note generali   Description based upon print version of record.
   Nota di bibliografia Includes bibliographical references and index.
   Nota di contenuto Informatics & public health -- Mental health -- Informatics and mental
                      health -- Data and standards -- Management information systems --
                      Adoption & implementation of mental health information technology --
                      Legal & ethical issues in mental health informatics -- Taking research
                      to practice -- Research, professional & educational competencies --
                      Types of data -- Information retrieval, interfaces, and strategies --
                      Selected mental health informatics databases -- Globalization of
                      information -- Policy & practice.
   Sommario/riassunto Mental Health Informatics offers a comprehensive examination of
                      contemporary issues in mental health that focuses on the innovative
                      use of computers and other information technology in support of
                      patient care, education, services delivery, and research in the field of
                      mental health services. This text deals with resources, devices, and
                      formalized methods for optimizing the storage, retrieval, and
                      management of information for problem solving and decision-making
                      in mental health. Mental health informatics is an interdisciplinary field
                      based upon computer and information sciences, the cognitive
