

1. Record Nr.	UNINA9910818533303321
Autore	Russell Dianne
Titolo	GMFM (GMFM-66 & GMFM-88) User's Manual, 2nd edition [[electronic resource]]
Pubbl/distr/stampa	Mac Keith Press, 2014
ISBN	1-908316-89-6
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (305 p.)
Altri autori (Persone)	RosenbaumPeter L WrightMarilyn
Disciplina	612
Soggetti	Medicine Motor ability in children Motor skills -- Child
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Sommario/riassunto	What is the GMFM? The Gross Motor Function Measure (GMFM) is a clinical measure designed and validated to evaluate changes in the gross motor function in children with cerebral palsy (CP). There are two versions of the GMFM: the original 88-item measure (GMFM-88) and the 66-item measure (GMFM-66). These items are administered in the same way-the difference between the two versions simply concerns which of the items (from the full pool of 88 possible items) are included in GMFM-66. There are three methods of administering the GMFM to obtain a GMFM-66 score. All three methods require
