Sommario/riassunto

Antisocial and criminal behaviour involving children and young people have been a cause of heightened public concern in England and Wales for more than a quarter of a century. It has been the subject of numerous policy papers, research studies and academic assessments as well as extensive newspaper, radio and television coverage. This has set the context for an ever expanding volume of legislation seeking to amend and improve society's official response. Yet despite a massive injection of resources into the youth justice system the results achieved have been unimpressive, reoffending
