

1. Record Nr.	UNINA9910818613303321
Titolo	Cost-effective building : economic concepts and constructions / / Christian Schittich (ed.)
Pubbl/distr/stampa	Munchen : , : Edition Detail, Institut fur internationale Architektur-Dokumentation Basel ; ; Boston : , : Birkhauser, , [2007] ©2007
ISBN	3-0346-1510-8
Descrizione fisica	1 online resource (178 p.)
Collana	in DETAIL In detail
Altri autori (Persone)	SchittichChristian
Disciplina	178
Soggetti	Building - Cost effectiveness Building - Cost control
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Frontmatter -- Contents -- Cost and quality awareness in building - a challenge / Schittich, Christian -- Project Summary -- Exhibition and Training Centre near Zevenbergen -- Cost efficient but not cheap -- Studio in Madrid -- Pharmacy and Medical Practice in Plancher-Bas -- Static Lightness in Timber -- Mobile House in England -- Prefabricated House from Denmark -- Straw House in Eschenz -- House in Shimane -- House in Aitrach -- Weekend House at St Andrews Beach -- House on Lake Laka -- Housing Development in Neu-Ulm -- Different Forms of Construction for a Modular Unit Building System -- Terrace Housing in Milton Keynes -- Apartment House in Dortmund -- Housing in London -- Apartment Building in London -- Multi-Storey Housing in Munich -- Cost and Quality Awareness in Construction -- Student Hall of Residence in Amsterdam -- Youth Camp in Passail -- Hotel in Groningen -- Cultural Centre in Munich -- Cost-efficient building means sustainable building -- Secondary School in Brixlegg -- Secondary School in Eching -- Montessori College Oost in Amsterdam -- Ice Skating and Mini-golf Hall in Bergheim -- "Economy does not mean building cheaply" -- Service Centre in Frankfurt am Main -- Planning as "refined carcass" construction: economical, functionally

neutral, robust -- Office and Training Centre in Dresden -- Production Building in Grosshöflein -- Cost Management -- Factory Extension in Murcia -- Wiper Factory in Bietigheim-Bissingen -- From Urban Planning to Construction Grid - Flexibility as a Design Strategy -- The Optimisation of the Load-Bearing Structure -- The Building in Operation -- Architects - Project details -- Illustration credits

Sommario/riassunto

In diesem Band der Reihe "Im Detail" stehen Projekte im Rampenlicht, die sonst immer im Schatten der spektakulären und extravaganten Bauten stehen, die die Fachpresse bevölkern: Bauten, die sich ungeschminkt, ohne Allüren präsentieren und gerade trotz engem Budget bis ins Detail sauber durchgearbeitet sind. Sie zeigen beispielhaft, wie und wodurch kostengünstiges Planen und Bauen möglich ist. Die Bandbreite der Lösungen erstreckt sich dabei vom Einsatz von Standardprodukten bis hin zu innovativen und individuellen Detaillösungen. Kostengünstiges Bauen erfordert besondere Sorgfalt im gesamten Planungs- und Ausführungsprozess. Dementsprechend wird dieser umfassend mit Fachbeiträgen und Projektdokumentationen betrachtet, von der Büroorganisation über die Entwurfsphase, die Koordination der Ausführungsplanung bis hin zur Realisierung. Da Wirtschaftlichkeit heute einer der wesentlichen Aspekte beim Bauen ist, sind überall Baukosten aufgeführt sowie die jeweiligen Strategien und Maßnahmen, die zur kostengünstigen Realisierung führen. Die Bandbreite möglicher Lösungen bietet vielfältige Anregungen für Architekten und Planer.

This latest volume in the In Detail series turns the spotlight on projects otherwise overshadowed by the spectacular and extravagant buildings that fill the specialist journals: unvarnished, unpretentious buildings that, despite tight budgets, are clearly worked out to the last detail. They exemplify how, and by what measures, cost-effective planning and building are possible. Because cost-effective building requires that special attention be paid to the overall planning and implementation these processes are examined comprehensively in specialist contributions and project documentations, from office organization through the design phase and the coordination of implementation planning, on to ultimate realization. The spectrum of solutions extends from the use of standardized products to innovative and individual solutions for details, complete with specified costs, and is a source of inspiration for architects and planners.
