Sommario/riassunto	This book examines the concept of regional power in international relations. Using the emerging powers of India and South Africa as the case studies, it explores how regional powers simultaneously differ and share common features. The book develops a method to classify and evaluate different types of regional powers and applies this typology to

contemporary case studies of India and South Africa. Regional power is often expected to have a positive influence on region-specific problems of conflict, economic deprivation and political instability. In reality, an 'achievement-expec
