

1. Record Nr.	UNINA9910818946503321
Autore	Cei Ugo
Titolo	Alfresco 3 web services : build Alfresco applications using web services, web scripts and CMIS // Ugo Cei, Piergiorgio Lucidi
Pubbl/distr/stampa	Birmingham, U.K., : Packt, 2010
ISBN	1-282-75043-7 9786612750434 1-84951-153-5
Edizione	[1st ed.]
Descrizione fisica	1 online resource (436 p.)
Altri autori (Persone)	LucidiPiergiorgio
Disciplina	650.02 650.0285
Soggetti	Management information systems Information resources management Database management Web site development Web services Open source software
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Cover; Copyright; Credits; About the Authors; About the Reviewers; Table of Contents; Preface; Chapter 1: Introducing the SOAP Web Services API; Web Services; Web Services in Alfresco; Introducing SOAP; SOAP vs. REST; The format of SOAP messages; The Web Services Description Language; Using Alfresco Web Services; Using the Alfresco Web Services client SDK; Setting up the Alfresco SDK; Testing the Web Services client; Summary; Chapter 2: Creating and Modifying Content; The Content Manipulation Language (CML); Setting up the Java classpath; Using the precompiled client Using third-party frameworksAuthentication; Setting the endpoint address with a properties file; Setting the endpoint address programmatically; Performing operations on nodes; Creating nodes; Creating content; Creating content using the content service; Removing nodes; Moving nodes; Copying nodes; Associations; Adding child nodes; Removing child nodes; Versioning; Updating nodes without

versioning; Getting the version history; Aspects; Adding aspects; Removing aspects; Searching the repository; Performing Lucene queries; Querying associated nodes; Association; Querying child nodes Querying parent nodes Summary; Chapter 3: Collaboration and Administration; Creating collaborative content; Performing check-out; Check-in; Check-in with versioning; Check-in-importing external content; Cancelling a check-out; Managing versioning explicitly; Creating a new version; Deleting all the versions; Getting the version history; Reverting a version; Managing locking explicitly; Locking; Unlocking; Getting the lock status; Classification and categories; Getting classifications; Describing a classification; Getting categories; Adding categories; Getting child categories; Authorization Setting owners Adding permissions; Creating authorities; Managing actions; Getting action definitions; Default actions; Getting an action definition; Executing actions; Saving actions; Getting actions; Removing actions; Managing rules; Default Conditions; Adding rules; Managing users; Adding users; Deleting users; Updating users; Changing passwords; Getting user information; Searching users; Summary; Chapter 4: A Complete Example; Setting up the project; The Bookshop model; Sign in page; Home page; Configure the bookshop repository; Book details page; Getting book properties Checking the cart space Getting all the associated reviews; Adding a book to the cart; Checking if the cart space exists; Creating the cart space; Adding a book in the cart; Cart page; Removing a book from the cart; Adding a review; Managing reviews page; Accepting reviews; Rejecting reviews; Changing user details; Summary; Chapter 5: Using the Alfresco Web Services from .NET; Setting up the project; Testing the .NET sample client; Searching the repository; Performing operations; Authentication; CRUD operations; Creating nodes; Creating content; Updating nodes; Copying nodes; Moving nodes Removing nodes

Sommario/riassunto

Build Alfresco applications using Web Services, WebScripts and CMIS
