CHAPTER THIRTEEN: Crossing multiple boundaries: Reflections on the Belgirate II experience; CHAPTER FOURTEEN: Learning from experience: The two international group relations meetings in Belgirate

Sommario/riassunto

This book, the second in a series on Tavistock Group Relations Conferences, contains the collection of papers presented at the second Belgirate conference plus four additional papers reflecting on and making sense of several participants conference experiences. Taken together, these papers offer an exciting picture of the Group Relations enterprise as it continues to adapt and innovate its approaches to the practice of Group Relations conferences globally. It will be of interest to members of the group relations community as well as others who are agents of change and development in their professions and organisations, and who might use group relations thinking in their research, management, consultancy or educational roles.

ISBN	1-118-59086-4 1-118-59085-6 1-118-59083-X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (472 p.)
Collana	Advances in Human Biology
Classificazione	SOC002020
Disciplina	599.93/8
Soggetti	Neanderthals Paleolithic period Human evolution
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Machine generated contents note: Chapter 1: Thin on the Ground: Population Density and Technological Innovation Chapter 2: The Neandertals in Time and Space Chapter 3: The Body Neandertal Chapter 4: Surviving the Cold Chapter 5: The Caloric Economy of Pleistocene Europe Chapter 6: Neandertals as Consumers Chapter 7: Red in Tooth and Claw: Neandertals as Predators Chapter 8: In the Company of Killers: Neandertals as Carnivores Chapter 9: The Cost of Living in Ice Age Europe Chapter 10: Neandertal Life, Life History, and Demography Chapter 11: From Thin to Thick: The African MSA .
Sommario/riassunto	"Thin on the Ground: Neandertal Biology, Archaeology and Ecology synthesizes the current knowledge about our sister species the Neandertals, combining data from a variety of disciplines to reach a cohesive theory behind Neandertal low population densities and relatively low rate of technological innovation. The book highlights and contrasts the differences between Neandertals and early modern humans and explores the morphological, physiological, and behavioral adaptive solutions which led to the extinction of the Neandertals and the population expansion of modern humans. Written by a world

recognized expert in physical anthropology, Thin on the Ground: Neandertal Biology, Archaeology and Ecology will be a must have title for anyone interested in the rise and fall of the Neandertals"--
"Integrates current understanding of the biology, archeology, and ecology of Neandertals"--
