Sommario/riassunto	There has been a groundswell of interest in and recognition of the importance the spiritual part of a person's life has to play in coping with/recovery from illness as well as in the attainment and maintenance of health, well being and quality of life. Addressing the spiritual part of life is now a key part of the health care professional's job but this raises the question of how this part of life can be assessed and catered for and how health care professionals might be equipped for this task.
