Sommario/riassunto	The needs of parents and carers of children on the autism spectrum are not met by conventional parenting strategies. This resource for trainers and facilitators offers the best available knowledge and theories to help

them develop an understanding of how their child perceives the world and ultimately improve their family life. The manual is divided into ten sessions that introduce a topic related to autism and Asperger Syndrome, for example, 'mindblindness' and the social world, and strategies to manage individual behaviour. During each session parents are introduced to a new topic and are inv
