

1. Record Nr.	UNINA9910819226503321
Autore	Putman H. Paul, III
Titolo	Rational psychopharmacology : a book of clinical skills // H. Paul III Putman
Pubbl/distr/stampa	Washington, District of Columbia : , : American Psychiatric Association Publishing, , [2020] ©2020
ISBN	1-61537-317-9
Descrizione fisica	1 online resource (xii, 322 pages)
Disciplina	616.8918
Soggetti	Psychopharmacology Problems and Exercises
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	"Most books about psychopharmacology focus heavily on the basic science involved and describe the currently available medications, including brief rationales for their use as well as their dosages and their side effects. Others are more for the general public, intended to help them understand how psychopharmacology might be helpful. This book is different. The goal is to teach the reader what medicines are available and what their characteristics are as well as teach very valuable skills: how to think thoroughly and methodically when assessing a patient, when reviewing research data (both basic and clinical), and when thinking through, developing, and monitoring the most effective clinical recommendations for patients. Rather than a lesson in elementary patient assessment, this book is an attempt to help readers identify weaknesses in their practice style and improve them where psychopharmacology is involved"--
