Sommario/riassunto	English is deeply embedded within recent neoliberal projects of social reformation in South Korea, becoming a central topic of contention in the controversial educational reforms of the Lee Myung-bak regime (2008-2012). It figured prominently in various changes to the Korean education system pursued by the Lee administration under the name of greater competitiveness, such as increasing English immersion instruction in public schools and opening greater number of special purpose high schools where English language skills are highlighted. Lee's policies on the one hand aimed to cater to middle-c
