Sommario/riassunto

Investing legend Warren Buffett once said that "success in investing doesn't correlate with I.Q. once you're above the level of 125. Once you have ordinary intelligence, what you need is the temperament to control the urges that get other people into trouble in investing." In an attempt to understand exactly what kind of temperament Buffett was talking about, Ronald W. Chan interviewed 12 value-investing legends from around the world, learning how their personal background, culture, and life experiences have shaped their investment mindset and strategy. The Value Investors: Lessons
