Descrizione fisica	1 online resource (xii, 227 pages) : digital, PDF file(s)
Disciplina	327.4304/09/049
Soggetti	Germany History Unification, 1990 Germany Relations Europe Europe Relations Germany Germany Commercial policy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references (p. 212-224) and index.
Nota di contenuto	A new Germany in Europe? -- Unification and "Germany in Europe" -- Continuity in trade and internal market -- Mixed outcomes in energy and environment -- Change in competition policy -- Change in structural funds and the CAP -- A new Germany in Europe.
Sommario/riassunto	German Unification and the Union of Europe discusses some of the most interesting questions in the study of comparative politics and international relations. The book studies the sources of continuity and change in German policy toward the European Union, set in the context of the competing pulls of integration into the EU, and unification of East and West Germany. Employing a framework of analysis premised on the interaction of interests, institutions and ideas, the book asks: how has the domestic politics of unification influenced German policy

toward Europe? Why has continuity reigned in some areas, whereas in others significant changes, sometimes reversals, have been registered? What are the implications of this checkered pattern of outcomes for Germany and for Europe? Jeffrey Anderson's book focusses on the political economy issues (such as trade, internal market, energy, and industrial policy) which represent key components of both German domestic politics and Germany's relationship with Europe. Awarded the DAAD 2000 Prize for Distinguished Scholarship in German Studies: Politics and Foreign Policy.
