

1. Record Nr.	UNINA9910819522903321
Autore	Gabbay J (John)
Titolo	Practice-based evidence for healthcare : clinical mindlines // John Gabbay and Andree Le May
Pubbl/distr/stampa	Abingdon, Oxon : , : Routledge, , 2011
ISBN	1-136-88837-3 1-136-88838-1 1-283-04371-8 9786613043719 0-203-83997-8
Descrizione fisica	1 online resource (290 p.)
Altri autori (Persone)	Le MayAndree
Disciplina	616
Soggetti	Evidence-based medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction : evidence in practice -- From formal knowledge to guided complexity -- Clinical thinking and knowledge in practice -- Growing mindlines : laying the foundations -- Growing mindlines : cultivating contextual adroitness -- The place of storytelling in knowledge sharing -- A community of clinical practice? -- Co-constructing collective mindlines -- Co-constructing clinical reality -- Conclusions and implications.
Sommario/riassunto	This book challenges the evidence-based practice movement to re-think its assumptions. Firmly rooted in real practice while drawing lucidly on a great breadth of theoretical frameworks, it examines afresh how clinicians use knowledge. Evidence-based practice has recently become a key part of the training of all health professionals. Yet despite its 'gold-standard' status, it is faltering because too much effort has gone into insisting on an idealised model of how clinicians ought to use the best evidence, while not enough has been done to understand why they so often don't. <E
