

1. Record Nr.	UNINA9910819661303321
Titolo	Nurturing the premature infant : developmental interventions in the neonatal intensive care nursery // edited by Edward Goldson
Pubbl/distr/stampa	New York, : Oxford University Press, 1999
ISBN	0-19-770794-7 1-280-76039-7 9786610760398 0-19-974877-2
Edizione	[1st ed.]
Descrizione fisica	1 online resource (xi, 201 pages) : illustrations
Collana	Oxford scholarship online
Altri autori (Persone)	GoldsonEdward
Disciplina	618.92/011
Soggetti	Neonatal intensive care Premature infants - Hospital care Sensory stimulation in newborn infants
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Previously issued in print: 1999.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Contents -- Contributors -- 1. The Environment of the Neonatal Intensive Care Unit -- 2. Reading the Premature Infant -- 3. A Conceptual Framework for Interventions with Low Birthweight Premature Children and Their Families -- 4. Infant Massage Therapy -- 5. Vestibular Stimulation As a Neurodevelopmental Intervention with Preterm Infants: Findings and New Methods for Evaluating Intervention Effects -- 6. Kangaroo Care of the Premature Infant -- 7. The Breathing Bear and the Remarkable Premature Infant -- 8. Clinical Research Implications for Developmental Interventions in the Neonatal Intensive Care Unit -- Index -- A -- B -- C -- D -- E -- F -- G -- H -- I -- K -- L -- M -- N -- O -- P -- Q -- R -- S -- T -- V -- W -- Y.
Sommario/riassunto	As more premature infants survive the immediate neonatal period and require prolonged periods of hospitalisation, researchers in fetal development and infancy have begun to reassess the strategies for their care.
