

1. Record Nr.	UNINA9910819840203321
Autore	Wells Jeffrey V (Jeffrey Vance), <1964->
Titolo	Birder's conservation handbook : 100 North American birds at risk // Jeffrey V. Wells
Pubbl/distr/stampa	Princeton, N.J. ; ; Woodstock, : Princeton University Press, 2007 Princeton : , : Princeton University Press, , 2007
ISBN	1-282-66578-2 9786612665783 1-4008-3151-2
Edizione	[Course Book]
Descrizione fisica	1 online resource (xii, 452 pages) : illustrations, maps
Collana	Gale eBooks
Disciplina	598.168097
Soggetti	Birds - Conservation - North America Rare birds - North America
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based on print version record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- Contents -- Foreword / Fitzpatrick, John W. -- Acknowledgments -- Scope and Purpose -- Birds as Indicators -- The State of North American Bird Populations -- Major Conservation Issues Affecting North America's Birds -- The State of Bird Conservation in North America and Beyond -- What You Can Do -- Species Accounts -- Appendix I. North American Birds of Conservation Concern Listed by Different Agencies and Organizations -- Appendix II. Hawaiian Birds of Conservation Concern and Extinct Species -- Appendix III. Mexican Government Official List of Endangered, Threatened, and Special Concern Bird Species -- Appendix IV. Agencies and Organizations Involved in Bird Conservation -- Illustration Credits -- Index
Sommario/riassunto	Until now there has been no single, comprehensive resource on the status of North America's most threatened birds and what people can do to help protect them. Birder's Conservation Handbook is the only book of its kind, written specifically to help birders and researchers understand the threats while providing actions to protect birds and their habitats. Jeffrey Wells has distilled vast amounts of essential information into a single easy-to-use volume-required reading for anyone who loves birds and wants to ensure they are protected. At-a-

glance species accounts cover in detail North America's one hundred most at-risk birds; each account is beautifully illustrated by today's top bird artists. The text includes status, distribution, ecology, threats, conservation actions and needs, and references. A distribution map accompanies each entry. Chapters discuss birds as indicators of environmental health, the state of North American bird populations, major conservation issues, and initiatives now underway to improve the health of North America's birds. Birder's Conservation Handbook is an indispensable resource for birdwatchers, researchers, naturalists, and conservationists. Reading it will inspire you to become an active steward of our birds and the habitats we share. A comprehensive guide to North America's one hundred most at-risk birds and how to protect them Compact and easy to use, with beautiful illustrations and data organized for convenient, at-a-glance reference Detailed species accounts, including distribution maps Practical advice on conservation Information on leading conservation agencies and resources
