

1. Record Nr.	UNINA9910819935303321
Autore	Singh Ramesh
Titolo	Applied welding engineering : processes, codes, and standards // Ramesh Singh
Pubbl/distr/stampa	Amsterdam, [Netherlands] : , : Butterworth-Heinemann, , 2016 ©2016
ISBN	0-12-804176-5 0-12-804193-5
Edizione	[Second edition.]
Descrizione fisica	1 online resource (444 pages) : illustrations, tables
Disciplina	671.52
Soggetti	Welding Metallurgy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Section 1: Introduction to Basic Metallurgy -- Section 2: Welding Metallurgy & Welding Processes -- Section 3: Nondestructive Testing -- Section 4: Codes and Standards.
Sommario/riassunto	A practical and in-depth guide to materials selection, welding techniques, and procedures, Applied Welding Engineering: Processes, Codes and Standards, provides expert advice for complying with international codes as well as working them into "day to day" design, construction and inspection activities. New content in this edition covers the standards and codes of the Canadian Welding Society, and the DNV standards in addition to updates to existing coverage of the American Welding Society, American Society of Mechanical Engineers, The Welding Institute (UK). The books four part treatment starts with a clear and rigorous exposition of the science of metallurgy including but not limited to: Alloys, Physical Metallurgy, Structure of Materials, Non-Ferrous Materials, Mechanical Properties and Testing of Metals and Heat Treatment of Steels. This is followed by applications: Welding Metallurgy & Welding Processes, Nondestructive Testing, and Codes and Standards. Case studies are included in the book to provide a bridge between theory and the real world of welding engineering. Other topics addressed include: Mechanical Properties and Testing of Metals,

Heat Treatment of Steels, Effect of Heat on Material During Welding, Stresses, Shrinkage and Distortion in Welding, Welding, Corrosion Resistant Alloys-Stainless Steel, Welding Defects and Inspection, Codes, Specifications and Standards. *Rules for developing efficient welding designs and fabrication procedures *Expert advice for complying with international codes and standards from the American Welding Society, American Society of Mechanical Engineers, and The Welding Institute (UK) *Practical in-depth instruction for the selection of the materials incorporated in the joint, joint inspection, and the quality control for the final product.
