Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Why missile defense? -- Strategic roles for missile defense -- The nuts and bolts of missile defense -- BMD and the Clinton administration -- BMD and the Bush administration -- BMD and the Obama administration -- The strategic utility of missile defense.
Sommario/riassunto	Why has the United States continued to develop ballistic missile defenses in an era of irregular warfare and asymmetric terrorist threats? How does missile defense contribute to US global strategy? Can the BMD system achieve the goals that lay behind its creation? Michael Mayer addresses these questions in his balanced approach to the contentious debate over the strategic value of missile defense. Mayer surveys the grand strategies of the Clinton, Bush, and Obama administrations, methodically comparing them with each president's missile defense policies. He also demystifies the fundamentals of the BMD system. Seeking to change the terms of the debate, he cogently challenges much of the conventional wisdom touted by both supporters and detractors of ballistic missile defense.

Nota di contenuto	Introduction -- Finnish paternalism at the start of the industrial revolution -- The Nordic welfare state as a backdrop for CSR -- The dawn of stakeholder thinking in Nordic countries -- The public sector: hard and soft regulation -- The private sector: an on-going transformation -- The nonprofit sector and civil society: conflict and collaboration -- Media and communication environment -- Positioning the CSR performance of Finnish companies -- Diffusion of global CSR trends in Finland -- CSR profession in Finland -- On-going challenges -- Conclusion.
Sommario/riassunto	This book introduces a Finnish approach to corporate social responsibility (CSR) and embeds it within a broader discussion on the Nordic roots of business responsibility and stakeholder thinking. The first part of the book traces the origins of Finnish CSR from paternalism at the beginning of industrialization to the start of the welfare state. The second part discusses the characteristics of Finnish CSR in light of the cultural and societal context and structure, and the third part

introduces current trends and challenges. Each section of the book includes case examples that illustrate Finnish CSR from different perspectives. The book will be of use to scholars and students with an interest in the Nordic approach to CSR.
