Suburban morphology and Portland's urban growth boundary / Thomas Harvey and Martha A. Works. Conserving the suburb : mechanisms, tensions and results / Peter J. Larkham.

Sommario/riassunto

This book examines and documents the remarkable development and transformation of suburban form throughout the globe during the twentieth century. The premise that suburban areas are monotonous, inert environments is put to a test through investigation of the complexity of those suburban settings and the dynamic physical changes that have taken place since their inception.
