Rules. Processes -- Conclusion -- References -- Notes -- Index
Sommario/riassunto	How should the medieval family be characterized? Who formed the household and what were the ties of kinship, law and affection that bound the members together? David Herlihy explores these questions from ancient Greece to the households of fifteenth-century Tuscany, to provide a broad new interpretation of family life. In a series of bold hypotheses, he presents his ideas about the emergence of a distinctive medieval household and its transformation over a thousand years. Book jacket
