Spectacles of waste / Will Straw -- Places of global shape : the world consumption in divided Berlin / Alexander Sedlmaier and Barthold Pelzer -- Modern heroics -- the Flaneur in Adolfo Bioy Casares's El sueno de los heroes / Amanda Holmes -- Temple bar, density and circulation -- the city as a terrain of many voices / Kieran Bonner.
Sommario/riassunto	As urban dwellers travel to work, home and play they carve random or predictable pathways across neighbourhoods and districts. This book investigates the urban capacity for movement, the city as a space of circulation, by taking into account not only the physical displacement

of people, but also the circulation of cultures, things, and ideas.
