Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	1. Treasury Diagnostic Questionnaire 2. Treasury Systems Cost Estimation Model 3. Application Software Diagnostic Questionnaire Annex A. Treasury Reform Program: Typical Steps Annex B. Institutional Arrangements for Payment Processing Annex C. Treasury Functional Processes
Sommario/riassunto	"Improvement in the management of public finances in developing countries has been an increasingly important focus of World Bank and IMF assistance to member countries. A key element of such assistance is the development of effective treasury systems, which form the backbone for recording and processing all financial transactions related to government budgets. The establishment of an effective, integrated treasury system helps manage public monies with greater financial control, improved monitoring, better planning, better fiscal reporting, and better data for budget formulation, while also improving transparency and accountability of government."
