Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. The thorax -- pt. 2. The abdomen and pelvis -- pt. 3. The upper limb -- pt. 4. The lower limb -- pt. 5. The head and neck -- pt. 6. The nervous system.
Sommario/riassunto	Written by one of the great teachers of anatomy, the thirteenth edition of Clinical Anatomy continues to provide thousands of medical students, postgraduate trainees and junior doctors across the world with essential anatomical information within a clinical setting. It is particularly appropriate for those preparing for the Intercollegiate Membership Examination of the Royal Colleges of Surgeons (I-MRCS). Professor Harold Ellis is again joined by Professor Vishy Mahadevan to provide detailed, easy-to-follow structured text suitable for anatomy students and trainees of all levels. Fully revised and updated with many new illustrations, this new edition features for the first time, several anatomical drawings overlaid on a living anatomy model to provide detailed topographical orientation and accurate surface representation. The companion website at <a href="http://www.ellisclinicalanatomy.co.uk/13edition">www.ellisclinicalanatomy.co.uk/13edition</a> contains digital flashcards of all the illustrations and photographs contained in the book - ideal for revision and teaching purposes.
