

1. Record Nr.	UNINA9910820204503321
Autore	Cribb Julian
Titolo	The coming famine : the global food crisis and what we can do to avoid it // Julian Cribb
Pubbl/distr/stampa	Berkeley, Calif., : University of California Press, c2010
ISBN	1-282-66080-2 9786612660801 0-520-94716-9
Edizione	[1st ed.]
Descrizione fisica	1 online resource (261 p.)
Classificazione	ZA 57000
Disciplina	363.8
Soggetti	Food supply Food industry and trade Sustainable agriculture Climatic changes
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. 207-233) and index.
Nota di contenuto	What food crisis? -- Food-- or war -- The well runs dry -- Peak land -- Nutrients : the new oil -- Troubled waters -- Losing our brains -- Eating oil -- The climate hammer -- Elephants in the kitchen -- A fair deal for farmers -- Food in the future.
Sommario/riassunto	In The Coming Famine, Julian Cribb lays out a vivid picture of impending planetary crisis--a global food shortage that threatens to hit by mid-century--that would dwarf any in our previous experience. Cribb's comprehensive assessment describes a dangerous confluence of shortages--of water, land, energy, technology, and knowledge--combined with the increased demand created by population and economic growth. Writing in brisk, accessible prose, Cribb explains how the food system interacts with the environment and with armed conflict, poverty, and other societal factors. He shows how high food prices and regional shortages are already sending shockwaves into the international community. But, far from outlining a doomsday scenario, The Coming Famine offers a strong and positive call to action, exploring the greatest issue of our age and providing practical suggestions for addressing each of the major challenges it raises.
