Nota di contenuto Cover; Half-title; Title; Copyright; Contents; List of tables, figures and graphs; List of contributors; Editor's Preface; List of abbreviations and acronyms; Chapter I: INTRODUCTION Catching up with corpus linguistics: Register-diversified studies from different corpora in different Spanish speaking countries; Chapter II: Variation across registers in Spanish: Exploring the El Grial PUCV Corpus; Chapter III: Dimensions of register variation in Spanish; Chapter IV: Epistemic modality and academic orality: Pilotstudy for COTECA (Corpus Textual del Espanol Cientifico de la Argenti Chapter V: Multi-register analysis of prepositional schemes in communication verbs in Spanish; Chapter VI: Future tense expressions in several Spanish corpora; Chapter VII: Technical-professional discourses: Specialized and dissemination text types; Chapter VIII: Academic writing: Exploring Corpus 92; Chapter IX: Using Latent Semantic Analysis in a Spanish research article corpus; Chapter X: Lexical bundles in speech and writing; References; Index The main focus of this book is the investigation of linguistic variation in Sommario/riassunto Spanish, considering spoken and written, specialised and nonspecialised registers from a corpus linguistics approach and employing computational updated tools. The ten chapters represent a range of research on Spanish using a number of different corpora drawn from.

amongst others, research articles, student writing, formal conversation and technical reports. A variety of methodologies are brought to bear upon these corpora including multi-dimensional and multi-register analysis, latent semantics and lexical bundles.
