	Apollinarius and the Chalcedonian definition; Epilogue; Bibliography; Index.

1.

rejected by the main church. Mark Edwards also reveals how authors who epitomised orthodoxy in their own day sometimes favoured teachings which were later considered heterodox, and that their doctrines underwent radical revision before they became a fixed element of orthodoxy. The first half of the volume discusses the role of Gnostic theologians in the formation of catholic thought; the second half will offer an unfashionable view of the controversies which gave rise to the councils of Nicaea, Ephesus and Chalcedon . Many of the theories advanced here have not been broached elsewhere, and no synthesis on this scale had been attempted by other scholars. While this book proposes a revision in the scholarly perception of early Christendom, it also demonstrates the essential unity of the tradition.
