Sommario/riassunto	Health Promotion and Wellness is designed to provide health care providers with both the theoretical knowledge and practical skills they need to provide high-quality clinical preventive services. This unique resource is separated into two sections: The first section gives information on risks, ways providers can assess for risk and tools they can use to advise and help patients move forward. The second section is a tool kit with information, resources, tools and other items that can help the clinician provide evidence-based, patient-centered information to their patients. This accessible refer
