Sommario/riassunto	To date, most constructivist international relations studies have characterized the influence of transnationalism on domestic forms of activism as uniformly positive. In particular, transnational interactions are viewed as positive factors for the development and daily impact of gender activism. Benjamin Stachursky's book questions the unvarying positive view of transnationalism on domestic forms of activism, arguing for a more nuanced analysis that permits an understanding of the enabling and restricting effects of transnationalism. Stachursky also challenges the dominant view
