

1. Record Nr.	UNINA9910820334503321
Autore	Fogoros Richard N.
Titolo	Fogoros' electrophysiologic testing / / Richard N. Fogoros, John M. Mandrola
Pubbl/distr/stampa	Hoboken, New Jersey : , : Wiley Blackwell, , 2018 ©2018
ISBN	1-119-23579-0 1-119-23578-2 1-119-23576-6
Edizione	[Sixth edition.]
Descrizione fisica	1 online resource (418 pages) : illustrations
Disciplina	616.1/2807547
Soggetti	Heart - Electric properties
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	The cardiac electrical system -- Abnormal heart rhythms -- Treatment of arrhythmias -- The electrophysiology study in the evaluation and therapy of cardiac arrhythmias -- Principles of the electrophysiology study -- The electrophysiology study in the evaluation of bradycardia : the SA node AV node and his purkinje system -- The electrophysiology study in the evaluation of supraventricular tachyarrhythmias -- The electrophysiology study in the evaluation and treatment of ventricular arrhythmias -- Transcatheter ablation : therapeutic electrophysiology -- Ablation of supraventricular tachycardias -- Ablation of PVCS and ventricular tachycardia -- Ablation of atrial fibrillation -- Ablation of atrial flutter -- Cardiac resynchronization : pacing therapy for heart failure -- The evaluation of syncope -- Electrophysiologic testing in perspective : the evaluation and treatment of cardiac arrhythmias.
