

1. Record Nr.	UNINA9910820349603321
Titolo	Fields virology Emerging viruses -Volume 1 // editors-in-chief, Peter M. Howley [and three others]
Pubbl/distr/stampa	Philadelphia, PA : , : Wolters Kluwer, , c2021
ISBN	1-9751-1255-5
Edizione	[7th ed.]
Descrizione fisica	1 online resource : illustrations
Disciplina	579.2
Soggetti	Viruses Virus diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Virus evolution -- Picornaviridae: The viruses and their replication -- Enteroviruses: Polioviruses, Coxsackieviruses, Echoviruses, and newer Enteroviruses -- Caliciviridae: The viruses and their replication -- Togaviridae: The viruses and their replication -- Alphaviruses -- Flaviviridae: The viruses and their replication -- Hepatitis C virus -- Flaviviruses: Dengue, Zika, West Nile, Yellow Fever and other Flaviviruses -- Coronaviridae: The viruses and their replication -- Filoviridae -- Paramyxoviridae: The viruses and their replication -- Henipaviruses: Hendra and Nipah viruses -- Orthomyxoviridae: The viruses and their replication -- Orthomyxoviruses -- Bunyavirales: The viruses and their replication -- Orthohantavirus, Orthonairovirus, Orthobunyavirus and Phlebovirus -- Arenaviridae: The viruses and their replication.
Sommario/riassunto	This volume of Fields Virology: Emerging Viruses, Seventh edition covers recent changes in emerging viruses, providing new or extensively revised chapters that reflect these advances in this dynamic field. Bundled with the eBook, which will be updated regularly as new information about each virus is available, including coronavirus and COVID-19, this text serves as the authoritative, up-to-date reference book for virologists, infectious disease specialists, microbiologists, and physicians, as well as medical students pursuing a career in infectious diseases.--publisher.
