Includes bibliographical references and index. Nota di bibliografia Front matter -- Contents -- Introduction -- Principles --Nota di contenuto Construction-related measures -- Building services measures --Project analyses -- Appendix Sommario/riassunto The sustainable renovation of older buildings involves more than just an improvement of their energy footprint a€" and it is due to the complexity of the issue why architects are destined to take on this task. The book, Energy efficiency refurbishments, was written by architects for architects. It shows how design, construction and systems

engineering carried out during the renovation of diverse types of

buildings fit together.
