Jussaume, Jr. -- Local conceptions of land and land use and the reform of Japanese agriculture / Iwamoto Noriaki -- Agricultural public works and the changing mentality of Japanese farmers in the postwar era / Kase Kazutoshi -- Organic farming settlers in Kumano / John Knight -- Whither rural Japan? / Nishida Yoshiaki, Ann Waswo.
Sommario/riassunto	Rural Japan during the twentieth century has been portrayed as a vast reservoir of conservatism in much of the literature on Japan's modern

development, and Japanese agriculture since the 1960s has been treated as an artificial creation sustained only by protectionism of the worst sort. This book presents a range of original, in-depth work, including work by Japanese scholars, that seeks to move beyond such stereotypes to reveal the diversity and complexities of rural life in Japan from 1900 to the present.
