Sommario/riassunto	The reputed wealth and benevolence of the Portuguese Jews of early modern Amsterdam attracted many impoverished people to the city, both ex-Convertos from the Iberian peninsula and Jews from many other countries. In describing the consequences of that migration in terms of demography, admission policy, charitable institutions-public and private-philanthropy and daily life, and the dynamics of the relationship between the rich and the poor, Tirtsah Levie Bernfeld adds a nuanced new dimension to the understanding of Jewish life in the early modern period.
