

1. Record Nr.	UNINA9910820498603321
Titolo	The Richard & Hinda Rosenthal Symposium 2014 - antimicrobial resistance : a problem without borders // Institute of Medicine of the National Academies
Pubbl/distr/stampa	Washington, District of Columbia : , : The National Academies Press, , [2014] ©2014
ISBN	0-309-31289-2 0-309-31287-6
Descrizione fisica	1 online resource (45 p.)
Collana	Richard & Hinda Rosenthal Symposium Antimicrobial resistance
Disciplina	616.01
Soggetti	Drug resistance in microorganisms
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	""FrontMatter""; ""Foreword""; ""Contents""; ""Welcome""; ""Panelist Remarks and Discussion""; ""Biosketches""
Sommario/riassunto	"The Institute of Medicine launched an innovative outreach program in 1988. Through the generosity of the Rosenthal Family Foundation (formerly the Richard and Hinda Rosenthal Foundation), a discussion series was created to bring greater attention to some of the significant health policy issues facing our nation today. Each year a major health topic is addressed through remarks and conversation between experts in the field. The IOM later publishes the proceedings from this event for the benefit of a wider audience. This volume summarizes remarks by and an engaging discussion with Dr. Rima Khabbaz, Dr. Stuart Levy, Dr. Margaret (Peg) Riley, and Dr. Brad Spellberg on "Antimicrobial Resistance: A Problem Without Borders." The Centers for Disease Control and Prevention identified antimicrobial resistance as one of five urgent health threats facing the United States this year. Antimicrobial resistance is a global health security threat that will demand collaboration from many stakeholders around the world. This report highlights the crosscutting character of antimicrobial resistance and the needs for many disciplines to be brought together to be able to deal with it more effectively."--
