

1. Record Nr.	UNINA9910820506303321
Titolo	Bladder cancer : diagnosis and clinical management // edited by Seth P. Lerner, Mark P. Schoenberg, Cora N. Sternberg ; contributors Hikmat Al-Ahmadie [and forty five others]
Pubbl/distr/stampa	Chichester, England : , : Wiley Blackwell, , 2015 ©2015
ISBN	1-118-67485-5 1-118-67486-3
Descrizione fisica	1 online resource (445 p.)
Disciplina	616.99262
Soggetti	Bladder - Cancer - Treatment Bladder - Cancer - Diagnosis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Title Page; Copyright Page; Contents; List of contributors; Preface; Acknowledgments; Part I Diagnosis and treatment of non-muscle-invasive bladder cancer; Chapter 1 Pathology; Benign urothelium; Reactive urothelium; Urothelial hyperplasia; Urothelial dysplasia; Flat urothelial carcinoma in situ (CIS); Papillary lesions; Invasive urothelial carcinoma; Carcinomas with divergent (aberrant) differentiation; Squamous cell carcinoma; Adenocarcinoma; Small cell/neuroendocrine carcinoma; Nested variant of urothelial carcinoma; Lymphoepithelioma-like carcinoma; Micropapillary carcinoma Sarcomatoid carcinoma Useful web links; References; Chapter 2 Risk stratification of high-grade Ta, CIS, and T1 urothelial carcinoma of the bladder; Introduction; Risk stratification; Ta high-grade urothelial carcinoma of the bladder; Carcinoma in situ; T1 urothelial carcinoma of the bladder; Non-surgical treatment options for BCG failure; Early radical cystectomy; References; Chapter 3 Utility of urine biomarkers; Introduction; FDA-approved urine markers; Useful web links; Note; References; Chapter 4 Novel endoscopic techniques for the detection of bladder cancer; Photodynamic diagnosis (PDD) Narrow band imaging Confocal laser endomicroscopy; Optical

coherence tomography; Conclusions; Useful web link; References; Chapter 5 Transurethral resection of bladder tumors; Introduction; Endoscopy and visualization of the bladder; The first TURBT and the evolution of instrumentation; Patient preparation; Surgical technique; Special situations for TURBT; Efficacy of TURBT; Other techniques; Intravesical therapy; Radical TURBT and bladder-sparing for muscle-invasive disease; Conclusions; Useful web links; References; Chapter 6 Intravesical chemotherapy; Introduction  
History of intravesical chemotherapy Intravesical chemotherapy; Treatment outcome; Complications/side effects; Device-assisted intravesical chemotherapy; Useful web links; Note; References; Chapter 7 Intravesical immunotherapy; Introduction; History/development; BCG mechanism of action; Induction; BCG and carcinoma in situ; BCG prevention of recurrence; BCG prevention of progression; BCG maintenance; BCG toxicity and treatment; Alternative forms of immunotherapy; Conclusion; Useful web links; References; Chapter 8 HGT1 bladder cancer: Diagnosis and treatment; Overview; Diagnosis; Follow-up  
Treatment Useful web links; References; Chapter 9 What to do when bacillus Calmette-Guerin fails; Introduction; Definition of BCG failure; Treatment of BCG-refractory CIS; Conclusion; Useful web links; References; Part II T2-4; Chapter 10 Selection and perioperative management of patients undergoing radical cystectomy and urinary reconstruction; Introduction; Patient selection; Pre-operative preparation; Inpatient standardization and pathways (inpatient and beyond); Conclusions and future state - what do we need to work on?; Useful web links; References  
Chapter 11 Radical cystectomy: Techniques and outcomes

## Sommario/riassunto

Bladder Cancer: Diagnosis and Clinical Management is a 100% clinically-focused guide to bladder cancer, providing practical, modern and evidence-based guidance to the latest in diagnosis and management of the condition. It differs from other books in its complete clinical focus as opposed to a heavy analysis of pathogenesis or basic science. As a result, practicing urologists and oncologists in the clinical setting will find it an essential resource to consult. In addition to the latest in diagnostic tools and imaging methods, core focus is on the management of each form of cancer at its
