Schooling for All? -- II: American Critiques -- 4. The Protective Garb of the "Job" -- 5. Going Global, or Going It Alone? -- 6. Ambivalent Imperialists -- Epilogue: American Teachers in a Global Age -- Notes -- Index
Sommario/riassunto	Until the early twentieth century, teachers went abroad with assumptions of their own superiority. But by the mid-twentieth century, they became far more self-questioning about their social assumptions, their educational theories, and the complexity of their role in a foreign society. Drawing on extensive archives of teachers' letters and accounts, Zimmerman's narrative explores the teachers' shifting attitudes about their country and themselves, in a world that was more unexpected than they could have imagined.
