

1. Record Nr.	UNINA9910820556403321
Autore	De Nevers Greg
Titolo	The California naturalist handbook // Greg de Nevers, Deborah Stanger Edelman, Adina M. Merenlender
Pubbl/distr/stampa	Berkeley, : University of California Press, 2013
ISBN	0-520-95461-0
Edizione	[1st ed.]
Descrizione fisica	1 online resource (281 p.)
Altri autori (Persone)	EdelmanDeborah Stanger MerenlenderAdina
Disciplina	508.794
Soggetti	Biodiversity - California Natural areas - California Natural history - California
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Front matter -- Contents -- Acknowledgments -- Preface -- 1. California Natural History and the Role of Naturalists -- 2. Geology, Climate, and Soils -- 3. Water -- 4. Plants -- 5. Forest, Woodland, and Range Resources and Management -- 6. Animals -- 7. Energy and Global Environmental Issues -- 8. Interpretation, Collaboration, and Citizen Science -- Glossary -- Index
Sommario/riassunto	The California Naturalist Handbook provides a fun, science-based introduction to California's natural history with an emphasis on observation, discovery, communication, stewardship and conservation. It is a hands-on guide to learning about the natural environment of California. Subjects covered include California natural history and geology, native plants and animals, California's freshwater resources and ecosystems, forest and rangeland resources, conservation biology, and the effects of global warming on California's natural communities. The Handbook also discusses how to create and use a field notebook, natural resource interpretation, citizen science, and collaborative conservation and serves as the primary text for the California Naturalist Program.
