Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Sommario/riassunto	This collection adds a new dimension to the field of ecocritical theory by merging multidisciplinary approaches to food studies with the established ecocritical discourse of culture and the environment. Encompassing a theme of confinement and control through the global industrial food systems, the collection explores the role of consumption and commodification in contemporary life and points to new directions for resistance and change.
