1.	Record Nr.	UNINA9910820616103321
	Titolo	Performance-oriented application development for distributed architectures : perspectives for commercial and scientific environments / / edited by M. Gerndt
	Pubbl/distr/stampa	Amsterdam ; a Washington, D.C., : IOS Press, 2002
	ISBN	9786610505579 600-00-0516-4 1-280-50557-5 1-60129-452-2
	Edizione	[1st ed.]
	Descrizione fisica	1 online resource (107 p.)
	Altri autori (Persone)	GerndtMichael
	Disciplina	005.1
	Soggetti	Electronic data processing - Distributed processing Application software Computer architecture High performance computing
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Also published as volume 10, no. 1 of the journal Scientific programming.
	Nota di bibliografia	Includes bibliographical references.
	Nota di contenuto	Cover -- Title page -- Contents -- Guest-editorial: PADDA 2001 -- Performance engineering, PSEs and the GRID -- NINJA: Java for high performance numerical computing -- Dynamic performance tuning supported by program specification -- Memory access behavior analysis of NUMA-based shared memory programs -- SKaMPI: a comprehensive benchmark for public benchmarking of MPI -- Efficiently building on-line tools for distributed heterogeneous environments -- Architecting Web sites for high performance -- Mobile objects in Java.
	Sommario/riassunto	An exploration of programming models, languages and tools for performance-oriented program development in commercial and scientific environments. The papers are based on presentations given at the workshop PADDA 2001 and come from two areas - scientific computing and commercial computing.
