Nota di contenuto	section 1. Mining company business issues -- section 2. Company politics -- section 3. Social/community/cultural issues -- section 4. Training and technology.
Sommario/riassunto	The mining industry presents many unique challenges including working in remote locations with unfamiliar cultures, the business of permitting, environmental protection, sustainable development, the persistence of negative stereotypes about the business, and the sometimes tricky mechanics of training and transferring technology. In addition, tension can spring up among the various disciplines involved as engineers, attorneys, accountants, and environmentalists, to name a few, encounter difficulty in finding a common language. And finally, as in any large and multifaceted industry, politics abo
